

Dr. Soren White, Fifth Avenue's Magic Man

By Lili Sarnyai

It is a truth universally acknowledged amongst the well-heeled crowds that the "perfect" dermatologist or plastic surgeon seems perennially elusive. Finding someone who is an expert in the field, a discreet and helpful professional, can seem rather daunting. Especially given the abundance of self-proclaimed connoisseurs of the art of youth and beauty; yet Soren M. White, MD, FAAD is just such a gem. An internationally recognized expert in the field of non-invasive rejuvenation, Dr. White ensures that each of his patients receives personalized care and advice in the tranquil and intimate atmosphere of his Fifth Avenue cosmetic dermatology practice.

Established by Dr. White himself, Skinklinic medi-spa has become one of the premier destinations in the United States for BOTOX, fillers, and laser treatments, offering an unrivalled myriad of options as well as the highest level of service. Should your treatment route call for additional, more invasive procedures, Dr. White's associate, plastic surgeon Dr. Mauro Romita is amongst the nation's most preeminent.

Certified by the American Board of Dermatology, with an M.D. from Columbia College of Physicians and Surgeons in New York, Dr. Soren White has been Director of Dermatological Surgery at Metropolitan Hospital in New York City since 1999. There, he continues to impart his expertise and knowledge of the latest techniques in dermatological and cosmetic procedures to the miracle workers of tomorrow. He has written a wealth of material for a variety of medical journals on subjects pertaining to dermatology, collaborated on numerous published papers, is often sourced and quoted by top beauty publications, and delivered multiple lectures on cosmetic dermatology.
